Congrats a great first solo exhibition! This doesn't happen regularly... that a single artist has sold so many pieces at this gallery or any other event at the center. Wow! - Mike T., Co-ordinator, Shenkman Art Center

"Just finish hanging your painting. It looks stunning. We hung it above the living room wall table. I was so excited and spent so much time admiring it this afternoon that I was late for my doctor's appointment! I guess taking care the mind is just as important and taking care of my physical side. Thank you for helping me decide on this piece and not letting it escape from me like the last painting. Love it!" – James. Q.

"Just to let you know how elated I am to think that we are able to hang in our games room a painting that depicts so exactly the landscape that surround's our cottage in the Gatineau Hills. Whatever time of the day that I view the painting, the light reflection is totally different... it's like have a multitude of paintings in one painting due to the changing light. I love your new colorist art, your use of bold and vivid colours and the movement in the painting is unbelievably obvious... how do you do it? We are visiting you on your web site on a regular basis since we have already chosen a spot in our dining room to hang another one of your incredible paintings." Dave and Debbie C.

"When Paul and I first laid eyes on your ART work in your pop-up gallery in Gatineau last autumn, we knew it was a fit for us and for our home. We were instantly drawn to your vivid colors and the way you handle perspective in all your paintings. When B.... was hung in our family room, we were thrilled beyond words and we now have decided to repaint the room in a gorgeous blue-grey and add accent lighting. I'm sure that it will be even more breathtaking! Your painting brings a smile to our faces each and every day. "We finally got our print hung in our house in San Miguel, MX. It was quite the ordeal with the high ceiling and painting the wall a complementing color, but it came out absolutely stunning! The painting brings us back home to the landscapes that surround our cottage back in Canada. You have such a wonderful talent in being able to capture the intimate character of how light affects the objects in your landscapes. We love it so! Thank you so much!" – Daniel S.
